

# Group 12 - README

## Instructions

- Create a DB connection using the following credentials:
  - username: root
  - password: password
  - Sample configuration

The screenshot shows the 'Setup New Connection' dialog box in MySQL Workbench. The 'Connection Name' field is empty. The 'Connection Method' is set to 'Standard (TCP/IP)'. The 'Parameters' tab is selected, showing fields for 'Hostname' (127.0.0.1), 'Port' (3306), 'Username' (root), 'Password' (with 'Store in Vault' and 'Clear' buttons), and 'Default Schema'. The 'Test Connection' button is highlighted.

- Open the following sql files in mysql workbench
  - FinancialDB.sql
  - TheatreDB.sql
  - UserDB.sql
- Execute the files
- run the .jar file
- contact Brandon Quan for any issues:
